TEXTURED WHEAT PROTEINS

Standout in a Crowded Field

ADM is a leader in wheat processing, and has been advancing our broader portfolio of plant-based proteins for over 75 years. This has led us to develop not only advanced wheat protein solutions, but an unrivaled variety and depth of soy, bean and pulse protein ingredients. This versatility and utility are ideal for a range of products and applications consumers are demanding today and will be interested in tomorrow.

When hydrated, textured protein delivers a fibrous meat-like texture with outstanding moisture retention and excellent mouthfeel, making them perfect for meat and meat alternative applications. Also in their dry form, they provide unique textures that characterize many of the most popular bars and snacks in the world.
